

Using Google Earth Pro

Download [GoogleEarth Pro](#) (free download)

Use this program to find out what the property looks like from an aerial view or street level.

Click on the clock icon in the toolbar to look at earlier aerial views.

Click on the ruler icon to determine measurements of the property.

On the left sidebar, Layers/Preferences (depending on Windows/MAC) can be checked to show various aspects on the map such as roads, 3D buildings, local place names, outlines of bodies of water, etc.

Information in the bottom right corner of the map shows GPS locations, elevation and the altitude shown on the map.
